## President's letter

I am pleased to report that the quarter ending June 30, 1971, has been satisfactory and that our objectives for 1971 are being achieved.

We have encountered some weakness in our advertising related services both here and in the United States. I anticipate that this will correct itself in line with the expected pick-up of economic activity.

Weakness in the advertising area has been more than offset by strength in the home freezer market and the benefits that our import operations derive from the high level of the Canadian dollar.

Here is a summary of the half year results:

	FIRST HALF 1971	FIRST HALF 1970	INCREASE
REVENUE	\$5,880,319	\$5,298,253	11.0%
NET INCOME	340,205	298,096	14.1%
EARNINGS PER SHARE	0.205	0.177	15.8%
EQUITY PER SHARE	1.754	1.388	26.4%

Working Capital increased from \$1,764,570 at June 30, 1970, to \$2,115,997 at June 30, 1971. This represents an increase of 19.9% and was achieved after a common dividend payout of ten cents per share.

We look for continued benefits from the strong demand for home freezers during the second half of the year.

Recent decisions by the Canadian Radio & Television Commission in respect to Cable Television will benefit our advertising related services.

In view of these facts I am optimistic as to the results for the second half of 1971, particularly since the last half of the year is, historically, our groups most active time.

# President's letter

During the first six months of 1975 our Company, in terms of Revenue and Income, held its own as compared to last year's record levels. In view of the generally depressing economic and business environment I feel gratified that we have been able to maintain these levels and I am pleased to report that our return on sales and services increased from 6.4% to 6.8%.

The decrease in revenue is attributable to a sluggishness in the trading sector of our activities due to continuing low level consumer spending. The decrease in earnings from the trading area has, however, been almost entirely offset by increased profitability in our manufacturing operations.

During the second quarter some improvements were made in the management structure of the Manufacturing group which, we believe, should result in improved effectiveness and profitability.

The 40,000 square foot addition to the building at General Freezer Limited has been completed; new machinery is being installed which will increase the plant's productive capacity, not only for freezers but also for dehumidifiers which will be in production in late 1975. The prospects for this new product are encouraging

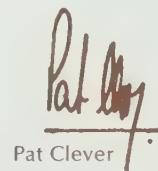

and a number of units have already been ordered for delivery in early 1976.

During June General Freezer management negotiated a new two year union contract with no disruption in operations.

As previously reported in the press, we have acquired approximately 777,000 shares of Toromont Industries Ltd., representing 16.4% of its outstanding common shares, for a total cost of \$2,314,205. We intend to make an offer later this month for an additional 1,000,000 common shares at a price of \$3.25 per share. This would give us a 37.5% interest in Toromont Industries Ltd.

Further expansion of your Company's activities is being considered with respect to the possibility of building a factory to manufacture fractional horse-power hermetically sealed refrigeration compressors. It is anticipated that the feasibility study will be completed later this year.

All present indications are that the last six months of 1975 will be satisfactory.

Pat Clever

# President's letter

It is with deep sorrow that I inform you of the sudden death of my husband and your President, Mr. Pat Clever, on July 15, 1976. I know that those who were privileged to know him as a person and as a businessman will miss his enthusiasm and common sense counsel.

At a meeting of the Board of Directors on August 18, I was elected to the Board and appointed President of the company.

In recent years Mr. Clever was extremely proud that he had built an organization of strong young managers who would ensure that the company would continue to grow and prosper. With a strong appreciation of this, the Directors have appointed Mr. Gordon Grahamslaw as Executive Vice-President and Chief Operating Officer of the company effective August 18. I know that this appointment would have been entirely in accordance with my husband's wishes as he and Mr. Grahamslaw had enjoyed a close relationship over the past eight years and that my husband had every confidence in Mr. Grahamslaw's judgement and management abilities.

The results of the first six months of our Group show an encouraging increase over those for 1975.

Here is a summary of the highlights:

	UP	TO	FROM
Revenue	8.3%	\$17,256,367	\$15,936,617
Income before Extraordinary Item	9.8%	1,185,579	1,079,379
Earnings per Share before Extraordinary Item	9.2%	71¢	65¢

During the period we sold substantially all of our shareholding in Toromont Industries Ltd. sustaining an extraordinary loss of \$71,559 pre-tax. The proceeds of this disposition were used to reduce bank indebtedness.

Recently the demand for domestic freezers has declined and the industry expects no significant improvement in the near future. General Freezer has maintained its share of the freezer market, while the line of dehumidifiers introduced this year has enjoyed gratifying results.

In contrast to the freezer market, sales of furnaces are buoyant and have increased substantially over last year. Both Olsen and Duo-Matic go into the second half of the year with an excellent back order situation.

Union contract negotiations were concluded satisfactorily at both Olsen and Duo-Matic. The agreement for Duo-Matic expires in 1978 and at Olsen in 1979.

All present indications are that the second six months will produce satisfactory results.

Toronto, Ontario
